October 2012

Each month we highlight a recent publication, recent study results, or other important information from the nation's network.

National Dental PBRN Article of the Month

Not just in the "Ivory Tower": Research in your office for your patients

The most recent issue of *Northwest Dentistry* highlights the National Dental PBRN, including an interview with two of its members who discuss why they became involved and the personal and professional benefits they have enjoyed in the process. *NW Dentistry* is the journal of the Minnesota Dental Association (MDA) and is well-read by dentists in the state, the majority of whom are MDA members.

We are pleased to report that this communication effort was not the work of network staff, but of the practice-based research leader/champions in the Midwest Region, several of whom have been actively involved in PBRN studies and have served on MDA's Evidence-Based Dentistry Taskforce. A tremendous thank you to the authors for initiating and coming through with a very nice publication.

The National Dental PBRN is now enrolling practitioners

The National Dental PBRN is now enrolling practitioners. You can enroll online by clicking [here](#), and following directions from there. You need to have a functioning email address to enroll. If you previously participated in another network such as the DentalPBRN, PEARL or PRECEDENT, you will need to re-enroll due to revised enrollment questions, the need to update information, and the opportunity to

submit ideas for research studies. For more information on the nation's network, click [here](#).

If you have completed the Enrollment Questionnaire, thank you for joining the nation's network! If you feel any of your colleagues may be also interested in joining the network, please invite them to join by visiting NationalDentalPBRN.org and clicking on the "Enroll Now" tab.
