

Northeast Region

National Dental Practice-Based Research Network members representing the Northeast Region gathered at four mini-meetings for 2014–2015. These mini-meetings were held in: Farmington, Connecticut; Rochester, New York; Philadelphia, Pennsylvania; and Parsippany, New Jersey. These locations were chosen because of the large number of National Dental PBRN members located near each site. Each half-day mini-meeting consisted of keynote presentations and breakout sessions. CE credits were awarded.

NORTHEAST REGION NATIONAL DENTAL PBRN | 3rd ANNUAL MEETINGS

Oct. 11, 2014

- Orientation to the Network
- Studies in the Pipeline
- Treatment of Patients on Anticoagulants Including Novel Anticoagulants
- Quick Poll Presentation and Discussion
- Patient Complaints of Xerostomia: Knowledge, Assessment and Management Characteristics of Dentists in the National Dental PBRN

Breakout Sessions:

- Treatment of Patients on Anticoagulants Including Novel Anticoagulants
- Patient Complaints of Xerostomia

Feb. 28, 2015

Speaker's Bureau for the Northeast Region

Often the most effective means to recruit new practitioners into the Network is for a practitioner (rather than an academic dentist) to give a brief presentation at a local study club, local dental society meeting, or meeting of a state dental association. We can work with you to make this easy. For example, we can provide PowerPoint slides and handouts, and discuss these with you to prepare you to give a presentation.

Additional Opportunities

Studies in the Pipeline

- Factors for Successful Crowns
- Risk for Oral Cancer Study (ROCS)
- Anterior Openbite Malocclusions in Adults
- TMJD Treatment Methods
- Oral Cancer Examination
- Predicting Early Outcomes of Root Canal Treatment
