Will Dental Practices Administer COVID Vaccine?

Many states are considering granting dental care professionals the authority to administer the COVID-19 vaccine, and one state already allows dentists to administer vaccines. This Quick Poll assesses network members' interest in administering a COVID-19 vaccine and factors that might influence their decision, if practices are given the authority to do so. Click [HERE](#).

FYI: all Quick Poll data are captured anonymously, so we have no way of identifying who responded.
