

Testimonial from Dr. Julie Ann Barna

How can you NOT join? Once you do your first Quick Poll you will be hooked. I see my staff come alive when we are seeing a study patient. My hygienist, Barb, has joined the network also; that's important. When I walk by a treatment room, I hear Barb explaining to a patient what we are seeing, what other dentists are experiencing, and what the research tells us. In this COVID-isolated world, we feel part of something special.
